“Kartonsan Karton Sanayi ve Ticaret Anonim Şirketi” has been evaluated by JCR Eurasia Rating.

- Maintaining positive networking capital level, despite the partial decline as of FYE2024,
- Solid equity level supported by retained earnings, though an erosion due to recent periodic losses,
- Despite the customer concentration, low level of doubtful receivables,
- Long operating history and financial support from Pak Group companies in FY2024,
- Compliance with the corporate governance practices as a publicly traded company,
- Despite a partial recovery in 2024, significant contraction in production and sales volume due to the labour strike in 2023,
- Sizeable gross and operational losses due to the increasing costs and intense competitive environment,
- Increased financial expenses deepened the net loss in FY2024,
- Despite the high cash inflow from asset sale, negative FOCF in FY2024,
- Production capacity decrease with the closure of one of the two production lines in FY2024,
- Expected continuation of period loss in FY2025,
- High dependence on imports and volatilities on cellulose prices in the sector,
- As actions for a global soft-landing gain prominence, decisions with the potential to adversely affect global trade are engendering considerable uncertainty.

Considering the aforementioned points, Issuer Credit Ratings and outlooks of “Kartonsan Karton Sanayi ve Ticaret Anonim Şirketi” have been assigned as follows.

Long-Term National Issuer Credit Rating : **BBB- (tr)** / (Negative)
Short-Term National Issuer Credit Rating : **J3 (tr)** / (Stable)
